SUMMARY

Software Developer and U.S. Army veteran with hands-on experience in network systems, fiber infrastructure, and full-stack software development. Skilled in Python, C#, JavaScript, SQL, and cloud applications with additional strengths in data analytics and automation. Proven leadership in high-security environments through eight years of military service and technical field roles. Eager to contribute to innovative development projects blending software, systems, and data analysis.

TECHNICAL SKILLS

Programming: Python, C#, JavaScript, Java, PHP, SQL, HTML, CSS

Frameworks & Tools: ASP.NET Core, React Native, MEAN Stack, jQuery, Tableau, Power BI, Docker, Ansible

Systems & Platforms: Windows, Linux, Cloud Applications, Azure, Hypervisors

Networking & Hardware: Fiber Optics (splicing, termination), Network Configuration, DevNet, Automation

Soft Skills: Team Leadership, Project Management, Communication, Dependability, Customer Support

EDUCATION

Bachelor of Applied Science – Software Development

California Institute of Applied Technology, National City, CA | *Expected Apr 2026* | GPA: 3.53

Associate of Applied Science – Business Data Analytics

California Institute of Applied Technology | *Aug 2024* | GPA: 3.81

Associate of Applied Science – Software Development

California Institute of Applied Technology | *Sep 2023* | GPA: 3.96

SOFTWARE PROJECTS

- **Web Application with SQL Backend:** Built a dynamic database-driven website using C#, ASP.NET Core, and MySQL to manage real-time user data and analytics.
- **Data Visualization Dashboard:** Developed Power BI and Tableau dashboards for business insights and decision support.
- **Automated Network Configuration:** Created Ansible playbooks to automate deployment and updates across multiple Linux systems.
- **Cloud Deployment:** Configured and deployed applications on Azure, integrating Windows Server authentication and security permissions.

PROFESSIONAL EXPERIENCE

Construction Planner II – Cox Communications | San Diego, CA | *Oct 2018 – Oct 2019*

Planned and executed infrastructure upgrades and network expansions in the San Diego region. Collaborated with cross-functional engineering teams to streamline project timelines and enhance connectivity performance.

Lead Fiber Optics Technician – Tekworks | San Diego, CA | *Aug 2018 – Oct 2018*

Supervised 3–4 technicians on fiber installation projects. Conducted splicing, termination, and performance testing for enterprise clients including Viasat.

Field Service Technician (Contract) – Field Nation | San Diego, CA | *Aug 2016 – Jul 2018*

Installed and maintained network equipment, performed workstation setups, and resolved connectivity issues across client sites.

ISO/OSP Junior Specialist – U.S. Navy / AT&T Government Solutions | San Diego, CA | *Jun 2015 – Jun 2016*

Supported NGEN contract at Naval Base Coronado. Led fiber division responsible for installation, splicing, and maintenance of multimode/single-mode fiber supporting Navy-Marine Corps networks.

Cable Manager & Maintainer – U.S. Army | *Jan 2011 – Jan 2018*

Led cable and fiber infrastructure projects; maintained secure communication lines for deployed units. Recognized for reliability, technical expertise, and mission readiness.

MILITARY HONORS

Afghanistan Campaign Medal | Army Achievement Medal | NATO Medal | Good Conduct Medal | National Defense Service Medal | Global War on Terrorism Service Medal | Army Service Ribbon | Marksmanship Badge
